Benefits To You

The PRINCE2 Examination Board has determined that all PRINCE2 Practitioners should be re-registered within 3 to 5 years of their original certification..

All Practitioners who have taken the PRINCE2 Practitioner qualification since October 2000 have agreed to this requirement as part of their initial application and so are now designated as Registered Practitioners.

This enables employers and prospective employers to be confident of their recency of knowledge and commitment to continuing professional development.

The APMG accredited PRINCE2 Practitioner qualification is recognised world- wide as a measure of excellence in Project Management skills.

The PRINCE2 Practitioner Re-Registration examination is a one hour, open book (PRINCE2 manual only), new-style Objective Testing examination (similar to multi-choice), taken on the morning of the second day.
